MSA, a.s.

Manufacturer of industrial valves

Valves manufactured by MSA, a.s. are supplied to more than 45 countries of the world.

MSA, a.s. is a company with a long tradition of industrial valves manufacturing. Design and development capacities, strong technological and production background of the company enable to fulfill demanding requirements of our customers and thus rank MSA, a.s. among the top world manufacturers of industrial valves.

MSA, a.s. manufactures a wide assortment of ball valves, gate valves, globe valves, swing check valves and other valve types, including valves for nuclear power plants.

Valves manufactured by MSA, a.s. are used in the following industrial fields:

- › Crude oil transport and processing
- › Natural gas transport, distribution and processing
- › Nuclear and conventional power generation
- › Heat generation and distribution systems
- › Water supply systems

MSA, a.s. has a special pressure testing room as well as test facilities for different kinds of non-destructive tests. Quality of the manufactured valves is based on quality system certification of products, employees and selected procedures. Company certifications are based on requirements of the customers; besides quality system certifications (EN ISO 9001:2008, EN ISO 14001:2004, API Spec Q1) MSA, a.s. holds many different production certificates and procedure certificates.
